

PRINCESS V48 OPEN

The Princess V48 Open is extremely easy to drive, whether you are sliding sideways around a marina or cruising effortlessly at sea. The L-shaped cockpit works very well, and a canopy overhead means the entire space can be covered if need be with minimal fuss. This Open version has a soft folding fabric roof which is electrically operated and is a traditional sports-cruiser with aft sun-pad, tender garage and lower saloon. The tender garage can accommodate a 3.25m jet-rib and the electro-hydraulic bathing platform which comes as standard on the Open version, means that it is easy to launch. Below decks, the dinette is slightly larger than the Deck version and can be converted to an occasional berth. With a full height fridge/freezer and all electric cooking appliances, the galley has all the amenities of a modern kitchen. Your full beam stateroom and forward guest cabin, which you can specify with a double bed or scissor berths, are exquisitely finished. The midships full-beam master cabin is fantastic and a genuine living space in its own right.
